T. Banks J. Frankland.

A. Banks H. Sutcliffe R. Wells.
H. Crossley E. Charnley.

can you recognise this little girl ?

please let us know if you can ...

about 1910 ?

S.M. Harrison

Out new school
and what I think of it.
Out new school is
very, very important
indeed. You see it was
about two hundred years
old. So the west Riding
county council decided
to alter it. It is called the
Junior C.E primary school.
I am in the higher class
which we call the big
class. We are at Wigglesworth
school just now. The toilets
are proper flushing ones.
and they are indoors now
because if it is a wet
day, or if it is a stormy
day, you needn't go running
outside, and soaking
yourselves. The Bishop of
Bradford came to see it,
and praise it, and then
Colonel Geldard opened it.
We have got real desks now,
that open up. We have

only got tables just now.
The kitchen is only small.
The small class has got
a great window in it.
and my mum says, that
they will be gazing out
of the window instead of
getting on with their
arithmetic. There is a nature
balcony as well. The men
who built it were, Mr
Harold Harper, My Uncle
Edward, and I don't know how
many else. The builder is
Mr James Mansergh. It is
very nice to me. The cook
is going to be Miss Joan
Shepherd. She is a nice
girl. The workers live about
a hundred yards away from
the school. My house is a farm
and it is the nearest house
to the school. There is a
playground which has
two levels.
