Road Safety - Request for sign 'Cul de sac' or 'no through road', on the road serving Dank Lhyll (west side of Horton Beck). This road is used by children and evidence shows that strangers to the district are surprised when they find it to be a 'dead end' and it has been observed that there is a tendency to turn round and retrace the route back to the main B6479 road at speed. Since the road is used by children en route to school,

particularly between the new footpath (alongside the burial ground) and the recently reconstructed footbridge across Horton Beck, it was agreed that this constitutes a hazard, and the clerk was requested to refer the matter to the Engineer & Surveyor of S.R.D.C.
