iii Caravanning and Camping Local Plan.

This plan was discussed and the following points were made:
The statistics given for Wigglesworth were inaccurate in that the total of 206^{ca} should actually be 290. On the figures actually given, Wigglesworth should have been included in the areas of perceived pressure, from its ratio of caravans to residents.

The Wigglesworth-Long Preston road is not suitable for caravans, and the roads around this area are already too much used by caravans.

In general, members of the meeting were opposed to the A65 corridor being considered an area for extension of caravanning/camping, which could be detrimental to good agricultural practice.

It was agreed that a letter of objection be sent to the Council.
