

Sept. 21—23.

THE LONDON CHRONICLE for 1784

YORKSHIRE.

To be SOLD by AUCTION,

Together or in parcels (the day of sale postponed to October the 13th, instead of September the 29th), at the sign of the Golden Lion, in Settle, in the county of York, at Six of the Clock in the Evening (if not disposed of in the mean time by Private Contract, of which notice will be given),

**T**HE FREEHOLD Manors and Estates of CALTON, in the West Riding of the county of York. Comprising the manors of Calton, Airtou, Kirkby, Malhamdale, Malham East, Malham West, and Hanlith, with the quit-rents, lease-rents, courts, royalties, and immunities, together with upwards, of one thousand acres (customary measure) of arable, meadow, pasture, and woodland, divided into compact farms, with proper dwelling-houses and buildings, and divers cattle-gates and sheep-gates, in Calton, Airtou, and Malham, aforesaid; and also an extensive right of fishing in that valuable fishery called Malham Farm.

The tenants of the farms are Richard Atkinson, Anthony Taylor, John Brown, Bernard Preston, John Stott, and several others.

And also the Manor of West Serafton, in Coverdale, in the North Riding of the said county of York, with the quit-rents, courts, mines of lead, coal, and other minerals; and also the quarries of slate, stone, and other royalties thereunto belonging.

Mr. Richard Holmes, of Linton in Craven, will show the Premises; and further particulars may be had, by applying to Mess. Atkinson and Watkinson, in Lancaster.

the Assignees, Mr. ELISHA TATHAM, of Gar-  
grave, near Skipton, who will appoint a person to  
show the Machinery and Mill; Mr. ISAAC HAD-  
WIN, of Liverpool; and Mr. EDWARD BURROW,  
of Westhouse, near Kirkby Lonsdale, who will  
treat for the sale of the whole of the machinery,  
and let the mill by private contract; or at the office  
of Mr. WILLIAM PRESTON, solicitor, in Kirkby  
Lonsdale.

Kirkby Lonsdale, April, 1899.

1919

## S. Michael's Church, Kirkby Malham.

### To Parishioners and Friends.

One of the glories of Malhamdale is its ancient and beautiful Church: we all feel that we have inherited from our forefathers a priceless treasure. For over a thousand years those who have gone before us have knelt in the same spot to receive the Sacrament and have met within its walls to worship God; to its altar they have led their young brides, to its ancient font they have brought their children to be admitted into the Church of Christ. Their initials carved upon the old pews still show where they knelt in prayer: their bodies were carried here and laid to rest around the old Church.

This is no fanciful picture of the imagination; the registers as far back as the reign of Queen Elizabeth record names with which we are still familiar. We have inherited not only their Church, but the good with which it inspired them.

Thanks to a loving foresight and generosity of thirty years ago the work of restoration, closely associated with Mr. Morrison's name, has left the main fabric in splendid condition; but the time has come again when frost and rain and wind have left their marks upon it; and we, who are your official representatives, cannot allow what has been entrusted to our care to leave our hands in a worse state of preservation than we received it.

Two things need urgent attention: "the ivied wall where the Church bell rings" (without the ivy, which was Kingsley's poetic license) must be raked out and carefully pointed; and the tracery of two of the large windows at the top of the Tower has so crumbled away that there is no little risk of injury to the Church roof from falling stone.

 of Mr. WILLIAM P  
 Lonsdale,  
 Kirby Lonsdale,

It is difficult to estimate the cost of work of this nature till it is actually in hand ; but we have had expert advice and it is calculated that it will require not less than £400. We are anxious that the work should be undertaken early in 1920, but we feel that we ought not to begin till we have the necessary money in hand, first because it is wrong in principle, and secondly because it is bad business to borrow money at the current rate of interest.

Remembering our wonderful heritage and realising the heavy responsibility which that heritage lays upon us, we are issuing this appeal for donations with every confidence that we shall receive a generous, willing, and immediate response, not only from Churchmen but also from every family in the Dale whose life and history is so closely associated with our old Church.

We have asked the Vicar to act as Hon. Sec. to the fund, and have opened an account at the Bank of Liverpool, Settle, in the names of Mr. W. A. PROCTER and Mr. WINSKILL as Joint Treasurers, to whom donations may be sent: and as Churchwardens and Sidesmen we have opened the fund with a joint contribution of £50.

## HYMN I.

WHILE shepherds watch'd their flocks  
by night,  
All seated on the ground,  
The angel of the Lord came down,  
And glory shone around.

"Fear not," said he, (for mighty dread  
Had seiz'd their troubled minds,)  
"Glad tidings of great joy I bring  
"To you and all mankind.

"To you, in David's town, this day  
"Is born of David's line,  
"The Saviour, who is Christ the Lord:—  
"And this shall be the sign:

"The heavenly Babe you there shall find  
"To human view display'd,  
"All meanly wrapt in swathing bands,  
"And in a manger laid."

Thus spake the seraph, and forthwith  
Appear'd a shining throng  
Of angels, praising God, and thus  
Address'd their joyful song:

"All glory be to God on high,  
"And to the earth be peace;  
"Good-will henceforth from Heaven to men  
"Begin, and never cease."

## HYMN II.

HARK, the herald angels sing,  
Glory to the new-born King,  
Peace on earth, and mercy mild,  
God and sinners reconcil'd!  
Joyful all ye nations rise,  
Join the triumphs of the skies,  
With th' angelic host proclaim,  
Christ is born in Bethlehem.  
Hark, the herald angels sing,  
Glorious to the new-born King!

Christ, by highest heav'n ador'd,  
Christ the everlasting Lord!  
Late in time behold him come,  
Offspring of a virgin's womb;  
Veil'd in flesh the Godhead he,  
Hail th' incarnate Deity!  
Pleas'd as man with man appear,  
Jesus our Immanuel here.  
Hark, the herald angels, &c.

Hail the heaven-born Prince of Peace!  
Hail the Sun of righteousness!  
Light and life to all he brings,  
Ris'n with healing in his wings,  
Mild he lays his glory by,  
Born that man no more may die:  
Born to raise the sons of earth,  
Born to give them second birth.  
Hark, the herald angels, &c.

1923

**SERIOUS SHOP FIRE.**—A serious fire occurred on Monday morning at the premises occupied by the Misses Ralph in Chapel Street, and used by them for the carrying out of their business as milliners. Miss Ralph herself first found out something was amiss when she opened the shop on Monday morning about 10 a.m. Finding it full of smoke, she summoned help, and Mr. F. J. Kelly, on entering found the rear part of the premises ablaze. The fire alarm on the Town Hall was sounded by a youth passing, and large numbers of volunteers were quickly on the scene. Fireman T. Brulley turned out in less than five minutes, and about ten minutes later he was followed by Fireman J. Day. Capt. Donaghue arrived later. P. S. Brown and P. C. Cook rendered particularly good work. The cart containing hose and implements was early brought on the scene, and the extending ladder, a recent purchase, was also brought to the scene of action. Most of the stock in trade was burnt or damaged, none of which is covered by insurance. The building, also, which is insured, is considerably damaged. The fire at one time was fanned by a strong breeze and showed signs of spreading to an adjacent wallpaper shop and cottage. The efforts of the volunteers prevented this. It is thought the fire originated through sparks dropping down one of the chimneys, although everything was in order when Miss Ralph visited the place on Sunday. The following rendered great assistance, and but for their efforts considerable other property would have been involved: Messrs. B. Young, A. Bulbeck, Jas. Lord, C. Millington, A. Lord, F. J. Kelly, J. Garner, J. Tomlinson, and W. Wilman.

**GAS WORKS.**—The gas works lately in the hands of the Vegetable Gas Company have been purchased by a company in Settle, formed under the Limited Liability Act, and called the Settle Gas Company, Limited. Coal gas is now supplied and the price charged will, we understand, be a little more than half the previous price per thousand. 1856

**GAS.**—An injunction in Chancery having been obtained by Mr. Booth, the patentee, to restrain Mr. Hassel of Hull, from using any portion of the patentee's apparatus in the making of vegetable gas, an offer was made to continue the supply of coal gas, to the inhabitants of Settle, at 10s. per thousand feet. A meeting was immediately called to take into consideration the future supply of gas, and a resolution was passed to open a correspondence with Mr. Hassel on the subject. Mr. Hassel eventually came over to Settle, and met the gas consumers in a public meeting held in the Mechanics' Hall. He explained the difficult position he was in, and said he would make an offer in the morning of his plant at a certain sum. It was then proposed that a company be formed, and that the capital to be raised be £600, in 120 shares at £5 each. Upwards of 60 shares were taken up immediately in the room, and next day the whole were subscribed for. A committee was appointed to meet Mr. Hassel and arrange for the purchase of the whole of his plant, except the patented articles. So for the future the supply of gas will not depend upon one individual. Mr. Hassel kindly undertook, to prevent the inconvenience of a sudden stoppage, to continue the making of gas to the end of the present quarter. The committee are using every exertion to meet the views of the consumers—such as looking out for a site, the present one having only five years of the lease unexpired, bargaining with Mr. Hassel, &c. 1856

**GAS MEETING.**—The first Ordinary General Meeting of the Settle Gas Company was held in the Mechanics' Hall, on Monday Evening, the 9th ult. Thomas Birkbeck, Esq. on the chair. There was a good attendance of Share-holders present. The directors were re-elected with a vote of thanks for their past services. Wm. Robinson, Esq. was appointed auditor. The Ordinary Annual Meetings of the Company were fixed to be held on the Second Monday in November in each year, at Eight o'clock p.m. At this, the first ordinary general meeting, the whole of directors retired but were eligible to be re-elected and were unanimously re-elected. The accounts were presented and passed and a dividend of 3s per share recommended by the directors was confirmed. There was some conversation about carrying the Gas into Upper-Settle, but it was left to the discretion of the directors who would see what prospect there was of the additional outlay of Capital being profitable to the company; after a vote of thanks to the chair the meeting concluded. 1857

**LIGHTING THE TOWN.**—On Thursday Evening, 11th a Meeting of Subscribers was held in the Room of the Gas Company at the Mechanics' Hall, to decide upon the necessity of Lighting the Streets of Settle. The Subscription List was cast up and it was found to amount to near £40 which will be scarcely sufficient to do the job effectually. Subscriptions will be thankfully received by the Committee for this useful purpose which few can object to, but those who prefer darkness to light. A Committee was appointed to carry the thing into effect immediately. Some in lieu of Subscriptions, had generously given lamps, or offered to light at their own expense. On Christmas Eve the lower part of the Town was for the first time well lighted with Gas. The position of the lamps was very judiciously chosen. 1857

Sir,  
Can there be nothing done in the way of lighting the street lamps? Every one is finding fault about it, but nobody makes any move; and in the meantime it is remarked upon by every stranger somewhat sarcastically—I was walking thro' the town the other evening with a gentleman, who was astonished to notice the absence of light and remarked, "I would the other night at a meeting I was addressing that I did not believe there were any towns of 1,000 inhabitants which were not now lighted by gas—but I find I was mistaken"—Should these things be so?  
I am respectfully,  
One who would not like to see  
Settle behind the times.  
1864

**ANOTHER ATTEMPT TO LIGHT THE TOWN.**—The demand for a poll on the question of the adoption of the Local Government Act for the township of Settle having been withdrawn on account of a strong opposition, three of the opponents of that measure, probably thinking it their turn to do something towards removing the opprobrium of dark streets, signed a requisition requiring the churchwarden, to convene a meeting of the ratepayers for the purpose of determining whether the provisions of the 'Lighting and Watching Act' 3 and 4 Wm. IV., cap 90, so far as refers to lighting, should be carried into execution in the part of the township of Settle comprising the messuages, cottages, buildings yards, gardens, and pleasure grounds, rated to the relief of the poor, within a radius of a quarter of a mile measured by a straight line on the ordnance map from the Folly. The meeting was held in the Mechanics' Hall on Monday night, the 30th ult., John Birkbeck, Esq. was called to the chair. The chairman having explained the object of the meeting and the requisition signed by Messrs. E. T. Foster, T. Leeming, and T. J. Sudell, and the notice of the churchwardens having been read, the resolution was put to the meeting when 23 out of 28 ratepayers voted for the proposed measure. After a long search to find men qualified by being rated at £15, and not disqualified by being shareholders in the Gas Company, Messrs. E. Brockbank, Joseph Tatham, John Preston, and T. A. Harvey were appointed Inspectors, with leave to spend not more than £100 the first year. 1865

1923

**SERIOUS SHOP FIRE.**—A serious fire occurred on Monday morning at the premises occupied by the Messrs Ralph in Chapel Street, and used by them for the carrying out of their business as milliners. Miss Ralph herself first found out something was amiss when she opened the shop on Monday morning about 10 a.m. Finding it full of smoke, she summoned help, and Mr. F. J. Kelly, on entering found the rear part of the Town Hall was ablaze. The fire alarm on the premises was sounded by a youth passing, and large numbers of volunteers were quickly on the scene. Fireman T. Bradley turned out in less than five minutes, and about ten minutes later he was followed by Fireman J. Day. Capt. Donoghue arrived particularly Brown and P.C. Cook rendered particularly good work. The cart containing hose and implements was early brought on the scene, and the extending ladder, a recent purchase, was also brought to the scene of action. Most of the stock in trade was burnt or damaged, none of which is covered by insurance. The building, also, which is insured, is considerably damaged. The fire at one time was fanned by a strong breeze and showed signs of spreading to an adjacent wallpaper shop and cottage. The efforts of the volunteers prevented this. It is thought the fire originated through sparks dropping down one of the chimneys, although everything was in order when Miss Ralph finished the place on Sunday. The following rendered great assistance, and but for their efforts considerable other property would have been involved: Messrs. B. Young, A. Bullock, Jas. Lord, C. Millington, A. Lord, F. J. Kelly, J. Garner, J. Tomlinson, and W. Wilman.

**Gas Works.**—The gas works lately in the hands of the Vegetable Gas Company have been purchased by a company in Settle, formed under the Limited Liability Act, and called the Settle Gas Company, Limited. Coal gas is now supplied and the price charged will, we understand, be a little more than half the previous price per thousand. 1856

**LIGHTING & WATCHING ACT.**

Notice is hereby given, that the Inspectors appointed for executing the above act will meet on the first Monday in every Month until further Notice, at Noon, at the Mechanics' Hall, in Settle,

John Preston,  
 Thos A Harvey,  
 Ellwood Brockbank, } Inspectors.  
 Joseph Tatham.

Settle, Nov. 29th, 1865.

**LIGHTING THE STREETS.**

A public meeting of the Ratepayers of Settle, was held in the Mechanics' Hall, on Thursday evening, the 13th ult., to consider what steps should be taken for lighting the Town during the winter months. Mr. Tatham was called to the chair and briefly introduced the subject of the meeting. Last winter the lighting of the town was confined to a few private lamps; but for the three or four previous winters it was done by voluntary subscription, and then there was nothing to complain of except that some of the ratepayers did not contribute a fair proportion of the cost, whilst others gave nothing at all, and the consequence was that the Treasurer (the Rev. John Robinson) found himself upwards of £65 out of pocket. Hence the discontinuance of that plan. The first question submitted to the meeting was whether darkness was to prevail, as last winter, or the reverse; the latter we need scarcely say was unanimously agreed upon. Then came the question as to how it should be done, whether the Lighting Act or the Local Government Act should be adopted. The Lighting Act would include lighting only; under the Local Government Act, the Local Board would have power not only to light the Town but also to cleanse and water the streets; they would also be a Local Authority for prevention and removal of Nuisances and have power to make various sanitary regulations. Ultimately a committee was formed for the purpose of getting up certain necessary information for the guidance of a future meeting, which was held on Thursday last G Stansfeld, Esq., in the chair. From returns obtained by the committee from various places it appears that the cost of adopting the Local Government Act varies from about £6 to £50 according to the amount of opposition to its adoption. At Buxton with a population of 2,000 and where there was little opposition the cost was £5 18s. being the expenses of the Inspector who heard objections, examined and marked out the district in the course of a day. At South Blyth in Northumberland, with a population of 2700 the cost was £6 18s. At Hoole (an agricultural district in Cheshire) with a population of 1,800 and where the adoption of the Act was sanctioned by the Secretary of State on the 23rd March, 1864, the cost was about £25. At Basford in Nottinghamshire with a population of 12,000 the cost was £19 5s. At Otley £53. This cost may become a charge upon the rates and be repaid by five annual instalments. As regards the annual expenses under the different Acts:—The cost of lighting the town was estimated at £60, to raise which, if a district merely including the houses adopted

1865

the Lighting Act, a rate of not less than 4d. in the £ would be required—the rateable value of the Town, including King's Mill and the Bridge End Mill, &c., being about £3700. If the Local Government Act was adopted for the Township the rateable value for the purposes of a general district rate would be about £5,280, viz.—Houses £4,000, Land £1,280—land being rated at only one quarter its rateable value. The annual expenses under the Local Government Act being estimated at £130 viz.—Salaries and Establishment charges £40, Lighting £60, Watering Streets £15 and Scavenging £15, a general District rate of 6d. in the £ would be required. And as the Local Board would also have the management of the Highways within the Township, a highway rate as at present (except so far as regards scavenging rate) would also be levied. The cost in the £ to householders and to occupiers of land under the two Acts would be as follows.

| UNDER THE LIGHTING ACT.              |        |                                      |        |
|--------------------------------------|--------|--------------------------------------|--------|
| To Householdors.                     |        | To Occupiers of Land.                |        |
| £                                    | s. d.  | £                                    | s. d.  |
| Lighting                             | 0 0 4  | Lighting                             | 0 0 0  |
| Cost of Highways under Highway Board | 0 0 3½ | Cost of Highways under Highway Board | 0 0 3½ |
| Total                                | 0 0 7½ | Total                                | 0 0 3½ |
| UNDER THE LOCAL GOVERNMENT ACT.      |        |                                      |        |
| To Householdors.                     |        | To Occupiers of Land.                |        |
| £                                    | s. d.  | £                                    | s. d.  |
| General District Rate                | 0 0 6  | General District Rate                | 0 0 1½ |
| Highways                             | 0 0 2½ | Highways                             | 0 0 2½ |
| Total                                | 0 0 8½ | Total                                | 0 0 4  |

Shewing a difference as between the two Acts of 1d. in the £ to Householdors and ¾d. in the £ to Farmers. Threepence in the £ was taken as the average amount of highway rates for late years, but as it is generally expected that this will be increased under the Highway Board, the probable cost is reckoned at 3½d.

After some discussion of the advantages and disadvantages of each method of procedure, Mr. Benson moved and Mr. Joseph Tatham seconded the proposition that the necessary steps be taken for adopting the Local Government Act. Mr. E. T. Foster proposed that the Lighting and Watching Act only be adopted. The second proposition finding no support
