A wider scheme is required in Geography and the Lower Standards should not be grouped with the upper ones in History, but should have a suitable selection of stories.

The Infants are as a rule taught by satisfactory methods, but speech training, especially the reproduction of stories, should have attention.

The Supplementary Teacher should take some steps to improve her qualifications if she wishes to continue to be recognised.

Premises Etc. New desks have been provided in the main-rooms - but the Infants' desks are very unsatisfactory.

Memorial Service for the Rev. John Poulet Sykes, late Vicar. Teachers & children attended. It was a beautiful service, and impressive. The lesson from the life of such a man may help to form the character of the children better than reading any biography or a lesson on citizenship.
