## American Luxury

The photograph below shows a Midland railway train midway between Hellifield station and Long Preston. What is of interest is the three coaches behind the locomotive: these are American Pullman Coaches.

The Midland Railway were the only British railway company to introduce these into regular service, a luxury at the time, date uncertain but again I would think early 1900's, The Midland railway was absorbed into the London Midland and Scottish railway (LMS) in 1923.

John Percy, August 2019
