MESSAGE

Dear Fiona,

We were very pleased how promptly the Park dealt with the accumulation of old vehicles, etc. recently at Stonehouse north of Selside. Now we have another similar problem.

For some time now Mr J. H. Morphet who used to live at Selside before us, has parked two very old and rusty trailer skeletons right in the middle of our village green. We have complained to Highways before and wrote again last week. However, he now keeps on putting additional items on the green: an old trailer, a slurry container and an old tractor. These rusty items are unsightly and dangerous. Selside residents moved some of the items back onto Mr Morphet's property but they are back again. Can the Park help again ... quickly?

Yours sincerely,
