Dear Sir,

Thank you for your recent letter and enclosure ref. Selside village green which you sent for our perusal. It was a most interesting map, and certainly helps to illustrate how areas can alter over a period of time. We feel it will not affect the decision arrived at, as that was based on the usage of the area in recent times, rather than in the last century. We will file the map with the report and documentation relating to the village green that Mr Moss from N.Y.C.C. sent us following the January meeting.

We are currently awaiting an indication of the steps the Council will be taking to put into effect the registration of the land as village green. The Residents Association would like to stress that any future tenants or owners of Penyghent Cottage would naturally be able to have use of the village green, along with all of others of the local community, providing such use did not lead to any areas being made unavailable for use by all.

Yours faithfully,
on behalf of Selside Resident's Association

Colin Webster
Secretary
