Mr Thackray, told me that their Farm, and Manor Farm, and old ^{old Post Office} Jones, and the Nook, ^{now Benson} used to all belong to one Chap. Mr Robert Proctor had told him.

Moses bought his ^{farm} off Miss Midgeley, so they must have owned it.

I asked Gilbert about this, and he said yes they did and Mr Midgeley her father used to farm it before he retired and had Thorncliffe made, a Mr Richards rented it off him, and lived there up till Moses Thackray bought it.
